

Quality Manufacturing LIMS Essentials

Out-of-the-box SaaS LIMS for Batch Manufacturers

Quality Manufacturing (QM) Essentials allows manufacturing organizations to get a LIMS up and running in a cost-effective, timely manner. QM Essentials is a SaaS solution that does not require infrastructure to start. It includes all the key workflows labs need to achieve effective and efficient testing and product release, while enabling organizations to reach their compliance goals.

Key Benefits:

- Expedite Batch Release
- Increase Quality Control & Lab Productivity
- Simplify Compliance & Reduce Risk

Examples:

- Accelerates sample tracking from intake to result
- Reduce manual errors with automated compliance workflows
- Integrates seamlessly with your existing lab equipment

Key Features:

- Batch Workflow
- Environmental Monitoring
- Sample Outsourcing
- Reporting
- Audit Trails

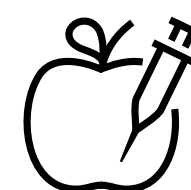

Ideal For:

Pharmaceutical Manufacturers

Consumer Goods Manufacturers

Food & Beverage Manufacturers
