STAR LIMS
ONE PARTNER. ONE POWERFUL SOLUTION.

STARLIMS CLOUD SERVICES

Focus on running your laboratory and leave the management of your solution to STARLIMS cloud service

+35 YEARS

At STARLIMS we work continuously to ensure our LIMS and lab informatics solutions help our global customers respond to their day-to-day challenges and succeed in their markets.

HOSTING LIMS IN-HOUSE CAN BE CHALLENGING

INFRASTRUCTURE COST
IT systems are expensive to maintain in-house.

LACK OF AGILITY
Scaling to meet needs may take a long time.

START UP DELAY
Going through processes to purchase systems takes time.

LACK OF EXPERTISE
Effectively managing security and databases require expertise.

LACK OF PLANNING
Some organizations do not have plans for disaster recovery.

FINDING CAPITAL
Getting approvals for capital investment can be challenging.

WHY CLOUD?

POWERED BY AMAZON WEB SERVICES
Leading Provider of Cloud Infrastructure, with Global Availability.

ENHANCED SECURITY
Through many components such as Virtual Private Cloud (VPC) and Logical Separation via Database Containment.

SCALABLE, HIGH PERFORMANCE ARCHITECTURE
On demand computing scalability, Solid State Drives and High Availability.

99.9% HIGH AVAILABILITY
Automatic failover architecture, load balanced server and database cluster.

GLOBAL COVERAGE
Data Centers in Americas, Europe and Asia Pacific.

STARLIMS CLOUD OFFERING

FASTER TIME TO LAUNCH
Get up and running quickly.

EXPERIENCED STAFF
Resources with Server, Database and Network Admin Experience.

SYNERGY
Cloud service managed by the same company that developed your LIMS Solution

REDUNDANCY & DISASTER RECOVERY
Database maintenance, backups, disaster recovery plans & more.

INFRASTRUCTURE
Powered by Amazon Web Services.

SCALE AS YOU NEED
Start with what you need and add licenses over time.

REDUCED COST
Overall costs can be reduced compared to maintaining the system in-house.

FULLY MANAGED
Patch management, malware protection & more.

"STARLIMS can meet our requirements as we continue to grow and expand, whatever our capacity, assay throughput and repertoire. It's always up to date and always working at the speed of the customer. I don't know any other system that would be able to do that."
Greg Ackermann, CTO, Precision Diagnostics*

*Precision Diagnostics implemented the STARLIMS cloud platform for enhanced data security to underpin all aspects of sample tracking and management, and to streamline testing workflows.
